

Assignment: Finding Slope Using a Graph

For questions 1 through 6, find the slope of the graphed line:

1.

2.

3.

4.

5.

6.

For questions 7 through 12, find the slope of the line that passes through the given points:

7.  $(4, 5)$  and  $(8, -10)$

8.  $(9, 1)$  and  $(9, 5)$

9.  $(0, -11)$ , and  $(3, 21)$

10.  $(6, -3)$  and  $(7, -2)$

11.  $(8, -1)$  and  $(11, -1)$

12.  $(5, 4)$  and  $(-1, 7)$

For questions 13 through 16, identify the slope of the line as either positive, negative, zero, or undefined:

13.

14.

15.

16.
